### **Final remarks:**

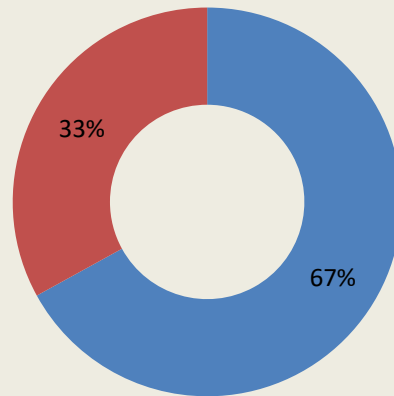

- The officers share includes regional presidents, provincial delegates, and club presidents;**
- As far as Technical officials are concerned, those accredited and certified have been taken into consideration;**
- For the Coaches, those from I to IV level SNAq were analyzed;**
- The aspiring referees and promoters were excluded from the analysis as they were considered pre-qualifications;**
- Out of a total of 1721 people analyzed, 145 held more than one role, therefore 1486 people analyzed are effective;**
- For each region, the numerical distinction of male and female participation in each category (managers, athletes, technicians and match officials) and how many roles the people involved in that specific region play were analyzed.**

Among these, 6% changed region to devote themselves to badminton and 50% of which in Lombardy.

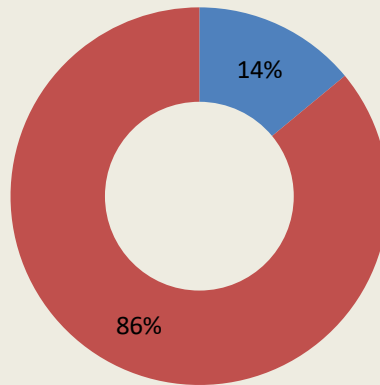

## Who moved to practise badminton

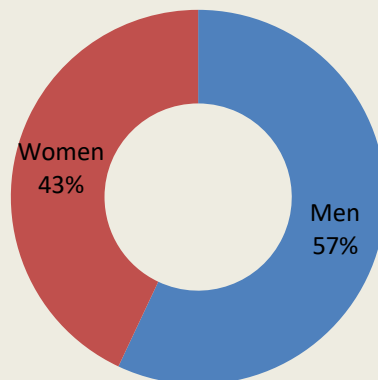

## Who has encountered discriminating attitudes

■ YES ■ NO

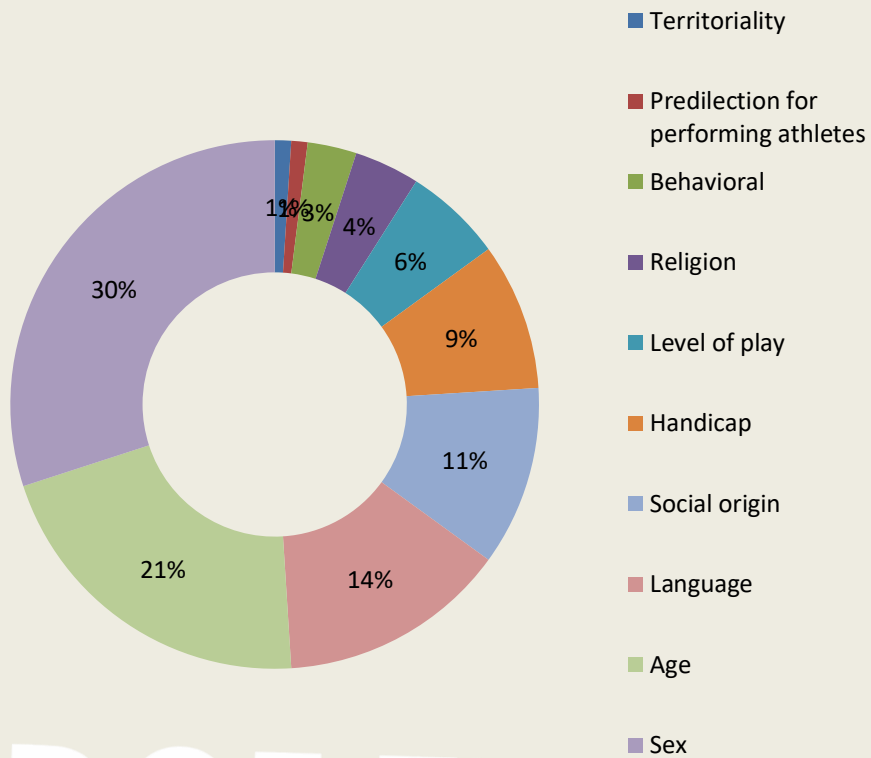

# BRIDGE THE GAP

## Gender of those who have encountered discriminating attitudes

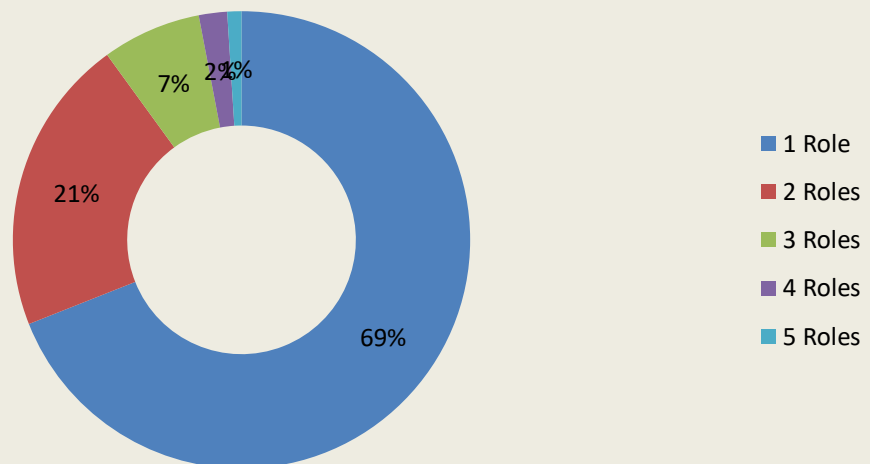

## What kind of discrimination?

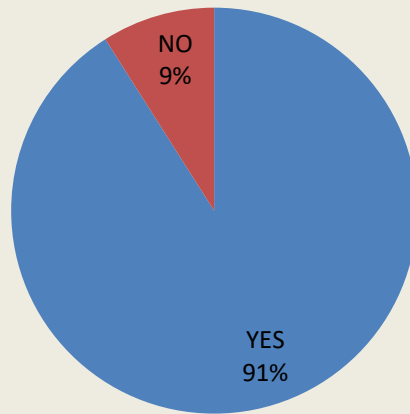

BRIDGE THE GAP  
BRIDGE THE GAP

## Roles covered by survey participants

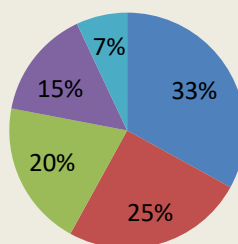

## Can badminton help to achieve gender equality?

# BRIDGE THE GAP

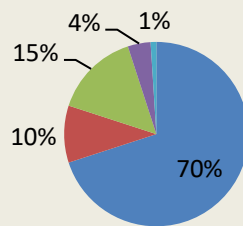

## Reasons for the NO

- Without motivation
- For anatomical - physiological reasons
- Cultural misconception that women are inferior
- Gender equality does not stem from sport
- Badminton in Italy is little known for having this goal

## Reasons for the YES with proposals to achieve gender equity

- Thanks to the mixed doubles discipline
- Create programs to keep women in sport
- Badminton is free from "sports stereotypes"
- Offer promotional days with the "mixed single"
- Advertising for women

**We can conclude this work by definitely noting that:**

- The number of women active in the world of badminton is still significantly lower than that of men;**
- Given the age of the survey participants, there was no adequate collaboration and sharing of the same;**
- Most of the participants do not find it necessary to move to practice badminton.**
- The roles mostly covered are those of athlete and coaches;**
- N.5 regions (Abruzzo, Emilia Romagna, Friuli Venezia Giulia, Umbria and Valle d'Aosta) completely absent from the survey.**
