MAJOR EVENT AS A SMALLER FEDERATION

- Experienced main team (Badminton Association of Slovenia)
- Partnership with clubs, especially with local club
- Partnership with local authorities
- Inventing new approaches as portal: technology works for us

HOW TECHNOLOGY CAN HELP US WITH EVENT PLANNING

- Our mission
- Partnership
- Sharing most challenging areas of event planning and how portal helped us

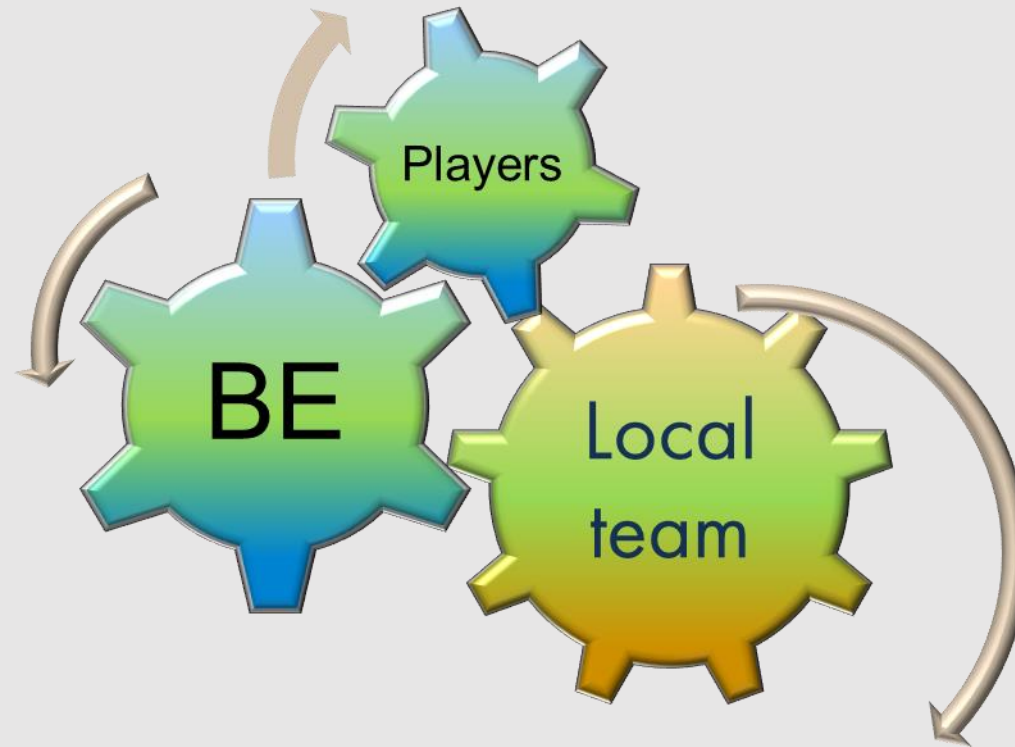

MISSION

- We want to have a platform that will WORK FOR US
- We want to have a platform that combines different areas of event planning
- We want to cover all three stages of the event (pre-EVENT, EVENT and POST-EVENT)
- We want to have a platform where we will minimize the risk of errors
- We want to have a platform where players/teams will be engaged at the right time in the right place

PARTNERSHIP

- Distribution of tasks
- WHO, WHAT, HOW is important

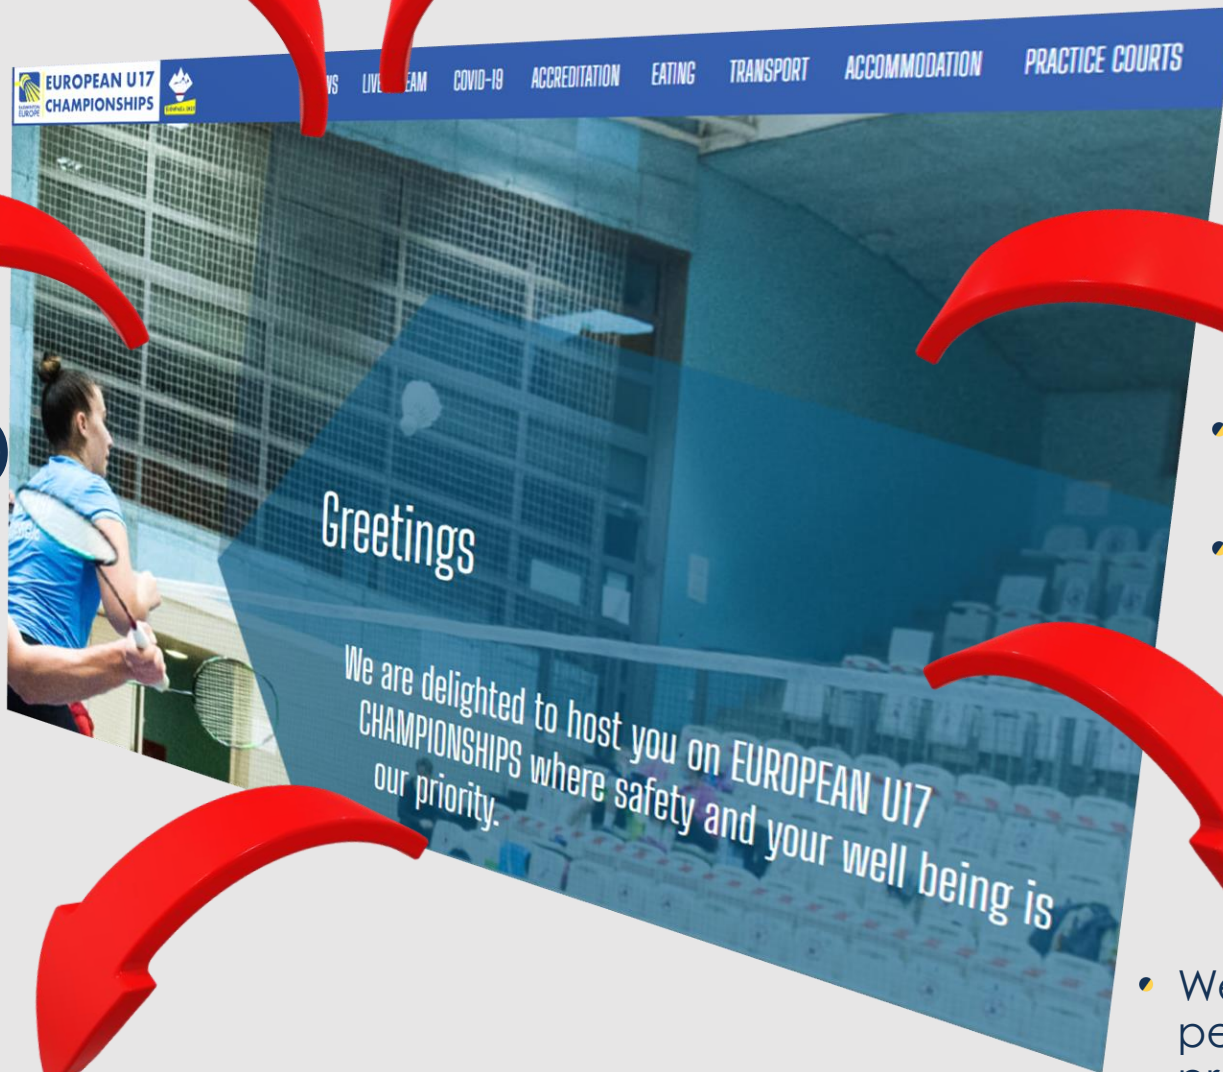

TIME

- We SAVE time with fast communication
- We include automatization to help us with simple steps

COMMUNICATION

- Communication was FAST and AVAILABLE 24/7
- We established a PUSH MAIL system where NEWS reminders were sent to all participants

RISK

- Platform minimized the risk of losing data
- We minimized human error and decreased stress of decisions

DATA

- We use collected DATA to perform analysis and prevent many failures (transport, accreditation)

WORKLOAD

- We used application forms for booking and collecting data
- We minimized excel traffic of data and increase "on-line time" traffic

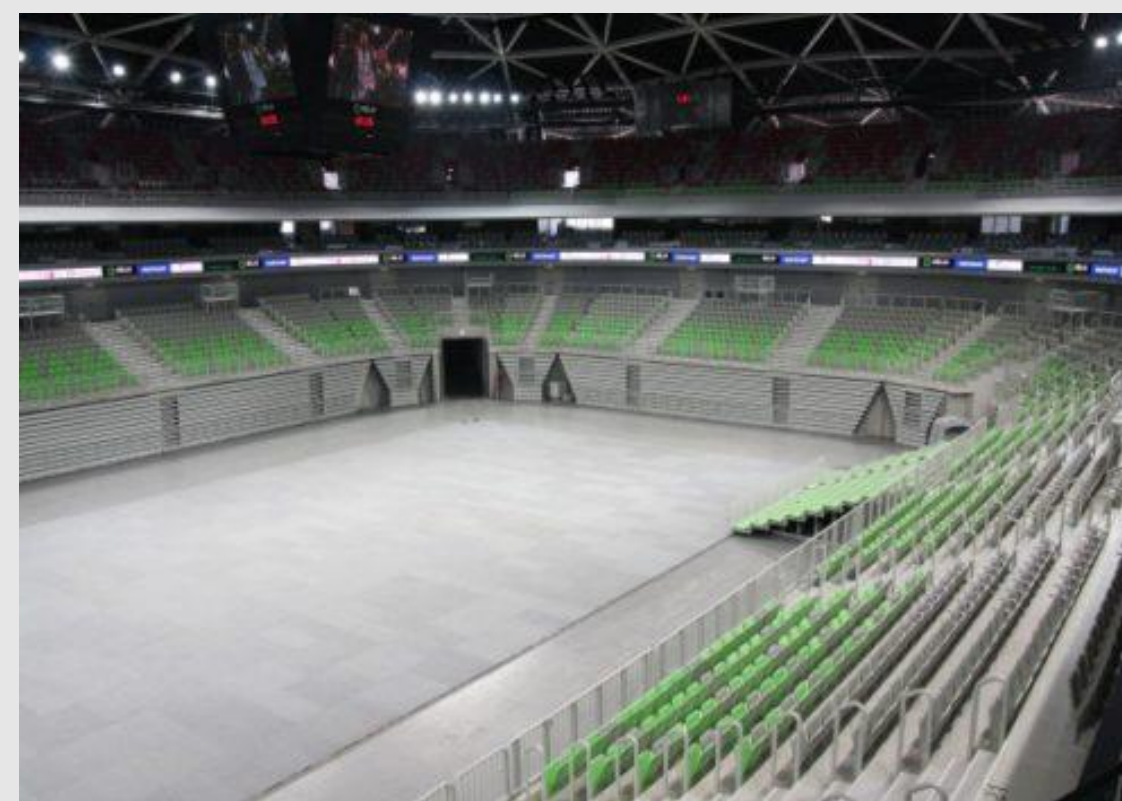

SPONSORS

- We create story/environment space for our sponsors
