*Gender Equity in badminton constitutes a key subject for both BEC and BWF. Both BEC's terms of reference and BWF's statutes aim to achieve a balanced gender representation in all badminton activities. To achieve this general objective, Members are encouraged to work together with BEC to attract more participants from under represented genders in all BEC activities. As a general target, there should be a minimum of 30% of participants of each gender in all our activities.*

BEC will review the applications and will confirm the participation via the entering body. Only participants who are confirmed by BEC will attend the event. Additional details about the event in general and other arrangements will be communicated closer to the event.
